#### OUR "PETS" WIN A 12 INNING GAME

Defeat Team from South Scranton by the Score of 5-4-Greatest Game of the Season-Cuff, Loftus and Rossler Play a Star Game-The Rooters Saw Some Wonderfully Fast Playing-Pitchers' Honors Even.

The South Scranton team, a great aggregation of lively players, went down before the Crescents in the greatest game of the season, our "Pets" winning, after twelve innings, by the score of 5-4. An immense crowd of delighted rooters went home, vowing that our boys were wonders, and they had good reason for it was the fastest game of when the "Pets" didn't deliver the goods when called for.

'Twas hardly a pitcher's battle; it and in his new position he demonstrated that the change made recently by the fifth, and because of his wonderwas a double resulted.

his being shifted to that position from his old place in left field was the right move. His record was one to be proud of, having fourteen put outs and an assist in a double.

Loftus was Johnny-on-the-spot, behind the plate, even though plastered on the head by a swiftly pitched ball, while at the bat. McHale's catch in the tenth was the kind that makes the cranks exclaim: "Great! That's ball playing." Emmett was in old form and at the bat he cracked out a three bagger, the first time at bat. Murray, Harte and Gallaghy likewise share in the day's honors.

"Our Owney" braced up after the first few innings, and he kept the visitors tied down like a rail on the Delaware and Hudson. He divided honors with Harrison, the dazzlingtopped pitcher of the Scranton team. The hits were even, 11 off each. Mc-Andrew struck out 8; Harrison, 6.

No runs were made on either side until after the third inning. In the twelfth, with two men on bases and no one out, Loftus hit to third. Tierney fielded it wild to first base, which brought in the winning run.

Boland, McDonald, Dyer and Hennessy took the honors for Scranton. Pitcher Hessling, of Honesdale, was an interested spectator during the game, and will probably know a little

#### Weather Man Scored at Susquehanna. Though the weather man said Satur-

day morning that the day would be showery, the Crescents and a few rooters were tempted to try against his judgment, and went to Susquehanna on the Eric "flyer" to play the team of the town of hillsides. The weather man, however, was better than a good guesser and won out. The rain came down and it came down until 2.30, when

#### DAVID AND GOLIATH. A Little Shot Put Old King Coffee Out of Business.

When medicine fails, they sometimes send sick people away to another climate for their health. Sometimes the climate does it, but more often they stumble on the proper food to take, and

A lady in San Diego tells of a friend who left her home each December, for the past two winters, to go to Cal. for her health. She says:-"Almost all of ther time was spent in visiting the doc- was attested when he rendered Henry tor and sitting in a big chair and watching the clock to note the time for offertory. her next dose of medicine. Nervousness was her principal trouble, and with others of kindred nature, made life for her a burden.

On the occasion of her last visit, I begged her to give up the use of coffee, and use Postum Coffee. She replied that she could not stop coffee. I said ino more at the time, but the next morning at breakfast, I passed her a fragrant, steaming cup of Postum, making It as it should be made. After that, I had no more trouble, and my friend drank no more coffee. But the most surprising part of the experience was the change that soon came over her.

We began to notice it within less than week. In less than a month, her nervousness had left her, and in three months, she was a new woman in face figure and health. I had not dared to hope for so much benefit, although I had been greatly benefited myself by Postum, but coffee to her system was simply poisonous, and I believe this is the case with many others. She returned to her home in December, and was married within less than two months after. She never fails to give credit to Postum for her health or thanks to me for teching her to make it properly, and well she may, for Postum has done for her what travel, doc-tors and medicine failed to do." Name by Postum Co., Battle Creek,

the water was shut off. The clouds broke somewhat and there was a brightening all around. Hoping against hope, our "Pets" put on their suits, but were hardly dressed when the Susquehanna manager came in from the diamond at Bebee park with the news that a game was not to be considered; the field was a big mudhole. The Crescents were willing to play several innings of an exhibition game, in order that the Susquehanna managers might reimburse themselves for the considerable loss they sustained, but the latter advised against such a course, owing to the condition of the field. Our players, keenly disappointed, acordingly left for Carbondale on the "flyer" and reached nome at 5.45 in the evening.

The Crescents and those who accompanited them wish to give voice to the warmest appreciation of the hospitality of the Susquehanna club managers Messrs. McGinty and Kenrick, and a the season, and there wasn't a time number of their friends. Nothing that went to the comfort and enjoyment of the Carbondalians was neglected, the entertainment provided going a good was extraordinary fielding that carried way towards compensating them for the day. Rossler played like a veteran, the disappointing trip. Comparisons may be bad taste, though sometimes warranted, and in this case we cannot Manager Tappan was all for the good. but recall how coldly we were received He made a wonderful running catch in when four hundred of us and more went over the Moosics to a borough at fully quick delivery of the ball a triple the head of a canal basin. This was play came near to being made; as it the second time this season that the Susquehanna team was put to the ex-Cuff at first demonstrated also that pense of caring for the Carbondale players, without any opportunity of recouping the loss. It was borne on each occasion, however, without the least whimper and with a cheerfulness that vas refreshing.

During the afternoon a trio of the Carbondale delegation made it merry for those about them by their clever vaudeville acts. Owney McAndrew, Shortstop McHale and "Dub" Martin were the star entertainers.

#### Hope to Induce Honesdale.

It requires patience to refrain from criticism of Honesdale's attempt to crawl out of playing a return game with the Crescents, as was generally understood, while the negotiations for the first game were in progress; but we will refrain until it appears that the efforts of Manager Tappan to land another date will be of no avail.

The situation at present is that Man ager Dittrich is halting. His players won't come to Carbondale, they are actually afraid of us—the miners Honesdalers called us in a jealous spirit the day of the game. This is a joke, being afraid to come to Carbondale, but the Honesdalers really say so, On the other hand, even if we went to Honesdale it's doubtful if they would accommodate us.

W. F. Suydam, who owns the silk mill ball field, where the last game was men from the city of eternal quiet and peace can not gather around that diamond again. Now, wouldn't that keep you at home, Stripplings? This is the latest excuse that Manager Dittrich has to offer. The manifesto against Carbondale playing on these grounds 0 will appear in a few days. But Carbondale wants to play, and

it's going to give Honesdale every opportunity to be on the level and show its sporting blood. If Honesdalers won't wander from Chestnut town, and if they won't let us meander to Chestnutville, then we're willing to go halfway. July 30, the day of the Liederkranz excursion from Honesdale. If successful, we'll expect Honesdale to be half decent and come half way. This ought to be a happy solution of the difficulty of playing in Honesdale. But if Honesdale still insists on crawling, well-but that will be another story.

## WILL GO TO NIAPICK.

Rev. T. E. May Has Resigned His Position as Pastor of First Congregational Church.

Rev. Thomas F. May last night preented his resignation to the board of trustees of the First Congregational church, of which he has been paster since the latter part of last fall.

He resigned in order to accept a call from Niapick, Conn. The resignation goes into effect August 25. A special business meeting of the board of trustees of the church was called, after last night's services, and it was then that Rev. May presented his resigna-

Rev. May succeeded the Rev. M. E. Elliott as pastor of the church, and his resignation is deeply regretted both by the members of the congregation and the large circle of other friends acquired by the departing clergyman in the city and vicinity. The resignation was anticipated by the trustees.

#### DID ASK FOR INCREASE.

The Tribune's Story About D. & H. Machinists on Saturday Was Correct Except in One Detail, While the Denial of Some Men in the Leader Was an Unfair Mis-statement of Facts-No Trouble Whatever, but the Most Friendly Feeling Between Master Mechanic Ennis and Employes.

The Tribune, on Saturday, published a story setting forth that the machists of the Delaware and Hudson company in the Carbondale locomotive shop had presented a request to Master Mechanic Ennis for an adjustment of wages, which would bring their earnings up to those received by the company's machinists at Oneonta and Green Island, N. Y. In the Evening Leader of Saturday this story was denied by some of the shopmen as fol-

employes called upon the Leader today to deny this story. They say that the men have presented no petition to Mr. We'll go halfway, say Lake Lodore, and | Ennis or any other official; that they oday negotiations will be entered into had no meeting on the question of an that he is now at Emergency hospital in for a game at the lake on Wednesday, advance in wages and that the men and Master Mechanic Ennis are on the most cordial and friendly terms. In conclusion they asked the Leader to state that there was no truth in the above statement whatever."

Now, The Tribune states positively that this story was correct, except in one detail, and that the denial was a deliberate mis-statement of facts. Furthermore, it was manifestly unfair to The Tribune, as it would have the effect of placing this paper in a wholly unwarrantedly false position. Not only is the inference there, but the direct statement is made that the article was absolutely without foundation and was manufactured out of the whole cloth. The unfairness of such a denial is quite plain and the employes, who ever they were, should feel that they have amends to make to The Tribune for the temporary embarrassment, not to speak of the possible injury, their action has caused The Tribune representative and his employers.

The Tribune now cheerfully makes the correction wherein it was wrong, viz.: That Monday was the time by which an answer was expected to the request. No time was set or even mentioned. The matter was left with Master Mechanic Ennis, when the committee met with him on Thursday noon last, as The Tribune stated. might be an inference from this that the men would take some action if the answer was not forthcoming by Monday. Such, however, is not the case, and it was not so intended to infer by The Tribune, though, as suggested before, some might draw such an infer-

The Tribune further cheerfully acquiesces in the wishes of the employes that it be made known that the most friendly relations exist between themselves and Master Mechanic Ennisy no more harmonious relations of this character could possibly exist; he is held in rarely high regard by the shop men, which is attested on every occasion when there is the least opportunity of showing the same.

In conclusion, The Tribune did not

print the story without any thought that there was likely to be the least trouble over the request that had been respectfully and deferentially made. It was discreetly handled, as was indicated by the fact that the word "request" was used throughout the arti-The word "demand" was carefully avoided in the body of the story, though it inadvertently and regretfully crept into the head of the item. committeeman sent to The Tribune to ask for the correction about Monday being fixed upon for an answer, confirmed the statements made to The Tribune by Superintendent Manville that his company was always ready to hear from its men and to deal equitably and fairly with them.
